SUPPLEMENTAL DECLARATION UNDER 37 C.F.R § 1.131

I, Paul J. Polansky, hereby declare that:

1. I previously made a declaration of facts related to my preparation and filing of the above-referenced U.S. Patent Application dated January 30, 2006. This declaration supplements those facts.

2. I reviewed my time entries related to this matter, which was identified in my law firm's docketing system as docket number 005.0015. My time entries for this matter are recorded in summary form in Exhibit A. My former law firm Ingrassia, Fisher & Lorenz, PC prepared this summary from its time billing system on June 9, 2006. This summary is an accurate summary of my time entries during this period.

3. I first reviewed the invention disclosure form (IDF) on July 22, 2003 and spent additional time on July 31, 2003. I continued preparation of a patent application on August 14, 2003 after my law firm officially logged the IDF and prepared and circulated a conflict check memo on August 13, 2003.

4. During the period between August 13 and October 10, 2003, there were 42 working days. One of those days was a national holiday. Six of those days were pre-arranged vacation days. Eleven of those days were pre-arranged business travel days.

5. During the remaining working days between August 13 and October 10, I worked diligently toward preparation and filing of the present application, taking into account my existing backlog of other work, including patent licensing activities and preparation of other patent applications.

BEST AVAILABLE COPY

6. The specific time entries in my daily planner, which I recorded before transferring them to my firm's time billing system, are contained in Exhibit B.

7. The patent application was completed and filed in the U.S. Patent Office on October 10, 2003.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S.C. 1001 and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
